

# Network with world class infrastructure candidates

## Monday, 10 June – Saturday, 15 June 2019

If you are a construction or engineering company, then this is for you. With regional skills shortages and ongoing projects across the Northland region to deliver, such as Whangarei Hospital redevelopments, tourism infrastructure upgrades and potential rail upgrades, you'll be interested to know more about global recruitment programme, [LookSee Build](#).

LookSee Build, along with a group of over 60 companies and councils from across the nation have come together, with the support of Immigration New Zealand, on a mission to fill the country's urgent need for construction and engineering professionals. Every month LookSee Build hosts event weeks where highly skilled candidates visit New Zealand for a week of interviews with employers, informative seminars, networking and a taste of the Kiwi lifestyle. Over 55% of these candidates have a preference to reside outside of Auckland, we therefore encourage you to take the chance to meet these candidates face-to-face at our upcoming event this June. And with a community of over 2,500 qualified, interested and available international candidates in LookSee Build alone, they are here to help with your recruitment needs – *LookSee flips the traditional recruitment process on its head, taking opportunities to the world, and in turn, bringing a world of talent back to New Zealand when that talent can't be found onshore.*

Below is a taste of who is in Auckland from June 10 – 17, should you want to meet them please contact Hamish on [Hamish.Price@hainesattract.co.nz](mailto:Hamish.Price@hainesattract.co.nz).

And some videos to those who have recently made the move

Steven Ball - <https://www.youtube.com/watch?v=4hUBUn23Jul&t=2s>

Clive Pretorius – Broadspectrum <https://www.youtube.com/watch?v=zUGpwa1mpo8>

Tiffany Robinson – Harrison Grierson <https://www.youtube.com/watch?v=4cG5cPq8Au0&t=29s>

Jimmy David – Symonite <https://www.youtube.com/watch?v=HvB-W6hejQ4&t=6s>
