

Fix key risk & value drivers to get your business back on track

The business landscape has shifted significantly. Non-financial internal and external risks, most notably **COVID-19**, have had a devastating impact on businesses with many having to close and face the prospect of never re-opening.

Our new Research confirms SMEs that survive have plans in place. Businesses that identify, adapt and take advantage of opportunities will emerge stronger.

To survive and then recover, business owners need to develop a plan that goes beyond profit and loss and/or cash flow budgeting and forecasting.

Recovery and **re-growth** planning involves analysing and fixing key risk and value drivers in your business that, when addressed and resolved will protect one of your major sources of income and wealth
– **YOUR BUSINESS!**

Our **Business Recovery Program** will help you develop your own Recovery Plan. It is a 3-step Program:

1 

Start your recovery plan by completing our free Short Risk and Value Driver Assessment (RAVDA) to identify key Non-financial risks.

Risk Diagnostic

Based on your responses to the Short RAVDA, data analytics will pinpoint areas of high concerns and value drivers you need to focus on to stabilise and grow your business.

2 

Register for an online planning workshop to prepare your own Business Recovery Plan Report.
Cost \$275 incl. for 1.5 hours

Workshop & Report

The online group workshop is facilitated by one of our business advisory specialists. At the end of the workshop, you will be able to generate a Report that includes SME sector benchmarks and research statistics, your business's SWOT analysis along with goals, strategies and action items with implementation timelines.

3 

Receive ongoing advice and support to implement your recovery and re-growth action items.

Support Packages

We offer a range of support packages that can be tailored to your individual needs and budget.
For eligible business this could be 100% funded by regional Business Partner Network.

TAKE BACK CONTROL

We are facing unprecedented challenges, but together we can work our way through and beyond this crisis.
